

# HOW TO BECOME A LIBRARIAN

*Do you* love getting lost in a maze of book stacks? Are you passionate about community outreach, intellectual freedom, and the dissemination of information? Do you meticulously organize your personal library and what's more - enjoy it? If so, you may want to consider the field of library science! Join four local librarians as they discuss librarianship in every shape and form - from what it means to be a librarian in the new millennium [and in Portland] to choosing the right school and landing employment afterwards. Q&A session to follow - all are welcome!

**Wednesday, February 4 7pm Free at the IPRC**
